

It's got a lot to answer for.

The Sessionette 75 has set a trend in small efficient combo design that many other amp manufacturers have followed. **SESSION** You didn't know that? Where have you been? Get down to your dealer now and he'll show you why.

R.R.P.

You told us what you wanted — we made it possible at the right price. A 75 watt combo the size of a 14" TV set — bus conductors won't object! Bright, deep reverb — better than yer actual twin reverb.

Overdrive from AC/DC to CARLTON thanks to the HARMONIC FILTER. 100% BRITISH MADE — GUITARIST/ENGINEER DESIGN — WHO'LL BE THE FIRST TO COPY IT? FOOT SWITCH EXTRA
