

Left: Gordon Giltrap showing off the GG10 acoustic guitar preamp at an instore demo evening held at Musical Exchanges, Birmingham - now Sound Control. In case you hadn't noticed, the other guitarist, behind to the right, is not ill... it's a cardboard cutout display feature!

Gordon is using his Rob Armstrong parlour guitar which was featured on his No 1 hit single 'Heartsong', later used as the theme tune on the BBC's 'Holiday Program'.

Below: Gordon with his friend Bert Jansch, who is also a GG10 user. Some of you might remember Bert as that fantastic acoustic guitarist in the sixties band 'Pentangle'.

Find out more about Gordons later music on:
